The Jeweltree Foundation Hallmark
A Guarantee for Transparency,
Social Responsibility and Ecological Sustainability

supporting fair trade initiatives

Our Quality Label

Our Quality Label guarantees supply chain transparency, social responsible practices in mining, polishing and manufacturing and ecological sustainable mining sites with third party verification. It also guarantees support for small fair trade initiatives in third world countries.

Together with people and organizations active in fair trade, ISO optimisation and development initiatives we have set the standards for our Quality Label.

It may be issued by companies that can guarantee a transparent supply chain and proof that the sources they work with comply with our standards.

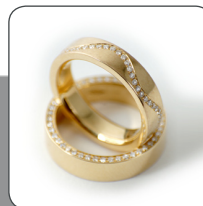

Our label and the sources we certify have third party verification!

What we Guarantee

JEWELRY

Jewelry with our Hallmark is fully traceable from mine to finger. It is made with precious metals that are ecologically mined without the use of heavy machinery or the use of chemicals and with a direct benefit to small local communities.

Jewelry comes with a Jeweltree Certificate and online travelogue.

DIAMONDS

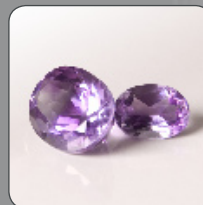

Diamonds that we certify come with guarantee of origin and polishing centre practices. They are guaranteed to be mined safely and manufactured under good social conditions.

We are proud to be the first to even certify diamond parcels with very small diamonds.

GEMSTONES

The gemstones that we certify come from small environmentally safe artisanal mining initiatives in third world countries with direct benefit to the local communities.

Mission

Gold and diamonds are symbols of love and light and when transformed into jewelry they become a unique gift to celebrate your most special occasions.

There should be no negative energy of suppression or misuse of people or environment attached to your jewelry and we make it our mission to guarantee that the diamonds, gems and the jewelry we hallmark are extracted safely and are manufactured under fair labour conditions and in total freedom.

Because that is what a symbol of love and light should be: FREE!
